

Hook Compatibility Guide Version 1.2 (November 14, 2010)

Welcome to the Version 1.2 of the Fish-Skull™ Hook Compatibility Guide.

The objective of the guide is to recommend specific hook brands, models and sizes that are found to be very compatible with the different sizes of Fish-Skull™. The guide is free to use, enjoy and share with your friends!

Each recommended hook has been measured/tested and is found to meet two key criteria; (i) the eye of the hook fits through the slot on the front of the relevant size Fish-Skull™ and (ii) the hook gap is wide enough and sufficiently proportional to ensure a high rate of hook ups.

The guide is by no means complete! Although we can already recommend **over 200 hooks**, there are hundreds more to go! We are currently engaging with most of the major hook manufacturers across the world and will be adding more recommended hooks on a regular basis! Please keep checking back for updates.

L = LARGE Size Fish-Skull™
M = MEDIUM Size Fish-Skull™
SM = SMALL-MEDIUM Fish-Skull™
S = SMALL Size Fish-Skull™
